打造更舒适宜人 及卫生洁净的卫生空间

随着挂墙座厕的逐渐普及，越来越多的公共场所、星级酒店、办公楼等正在将其纳入卫浴空间的设计方案之中。

而这一大趋势背后，关键还应归功于其简约的设计风格、以及更易于清洁的特性——不仅线条更流畅、蕴含高级感，悬浮式的安装也更好保证了卫浴地面的持久洁净。

同时，挂墙座厕的普及离不开高性能的隐蔽式安装水箱。对普通私家住宅用户而言，隐蔽式安装水箱的设计带来了更强的家庭空间适应性——更低的噪音、更灵巧的体积，大大节省了空间占用、增加卫浴间的宽阔感。

Roca 全方位的安装系统，从外观颜值、尺寸功能到组合搭配，为消费者提供了智能化、个性化的卫浴空间解决方案，打造内外兼修的高品质卫浴空间。

With the gradual popularization of wall-hung toilet, growing number of public places, star grand hotels, office blocks and other buildings are incorporating it into the design of bathroom space.

This irresistible trend is due to its minimalist design and easy to clean -- not only thanks to wall-hung toilet's smooth and sophisticated appearance, but also wall-mounted structure can ensure the hygiene of the bathroom flooring.

On the other hand, the popularity of wall-hung toilet could not be separated from the high performance of concealed installation systems. For those private residential customers, the design of hiding water tank could reserve more space for room, as well as reduce the noise and utilize the compact dimensions to improve the roominess.

Roca's comprehensive Installation Systems provide to consumers an intelligent and personalized bathroom space solution, both from functional and design perspective. It helps you to develop a high quality and aesthetic bathroom internally & externally.

Wide Range Of Solutions

多种安装系统解决方案

Installation systems en-compass various solutions designed to adapt to all kinds of WCs (smart toilets, wall-hung and floor-standing).

隐蔽式安装系统解决方案包含多种解决方案，旨在适用于多种类型的座厕（智能座厕、壁挂式座厕和落地式座厕）。

Moreover, to meet different water consumption needs, the mechanism of the installation systems can be easily used in three different Installation scenario: wall-hung, floor-standing and under window.

此外，为了满足不同的用水需求，隐蔽式安装系统解决方案满足挂墙式、落地式和窗下式不同应用场景。

Duplo Smart
多普勒智隐藏式水箱

Duplo WC One Full Frame
多普勒隐藏式水箱全框

Duplo WC One Naked
多普勒隐藏式水箱无框

Duplo Compact Under Window
多普勒康帕隐藏式水箱窗下

Easy Installation

安装方便

The frame of the **Duplo One** installation systems features an internal braking device to adjust its height swiftly and easily, simplifying the assembly process.

多普勒隐藏式水箱安装系统的框架内部具有制动系统，可快速轻松地调整其高度，从而简化组装过程。

Furthermore, all operating plates can be easily mounted without using any tools.

此外，无需使用任何工具即可轻松安装控制面板。

Installation Systems

隐蔽式安装系统解决方案

The new range of concealed cisterns allows for the quick and easy installation of any kind of WC. Their design and performance reduce the necessary installation dimensions providing more space in the bathroom and ensuring safety thanks to the high quality of their components.

WIDE RANGE OF INSTALLATION SYSTEMS

With range of concealed cistern it is possible to be used in three Installation scenario: wall-hung, floor-standing and under window.

多种安装系统解决方案

多款隐蔽式安装系统解决方案满足三种应用场景：挂墙式、落地式以及窗下式隐蔽式水箱。

DUPLO SMART

多普勒智隐隐蔽式水箱

COMFORT HEIGHT

Increased installation height of control panel, to prevent shielding cover or accidentally flushing.

舒适高度

增高的控制面板安装高度，避免遮蔽盖板或意外触发冲水。

CONCEALED CONNECTION

Built-in connection system, simple appearance, easy to clean.

隐蔽连接

内置连接系统，外观简洁、易清洁。

WATER SAVING

Water efficiency meet national standard to achieve more water efficient.

节水

水效达到国际标准，更节水节能。

一个新的隐蔽式水箱系列允许快速方便地安装任何类型的座厕。

其设计和性能减少了座厕的安装尺寸，在浴室中提供了更多空间，高质量的部件确保了使用的安全性。

EASY INSTALLATION

Installation is quick and easy. An installation pack with detailed instructions is included. The QR code about installation videos show you the different steps to follow.

易于安装

安装快速且操作简单。
包括一个带有详细说明的安装包。
二维码提供了安装视频和手册的链接，它们将向您提供要遵循的安装步骤。

HIGH QUALITY MATERIALS

Roca always works with the best materials. For this reason we are able to offer products that are a benchmark in terms of quality, which last over time regardless of the use we make of them. All cisterns comply with the norm GB26730-2011, and have been tested to work for 200,000 cycles.

优质材料

Roca 选用优质选材料。产品符合质量标准，并可长久使用。
所有水箱均符合标准 GB26730-2011，并已通过 200000 次使用测试。

COMPATIBILITY

Any WCs with a distance of 180 or 230 mm between the fixing rods can be installed with the ONE concealed cisterns.

兼容性

多普勒隐蔽式水箱适用于固定杆间距为 180 或 230 毫米的所有座厕。

SPACE SAVING

Reduced depth to ensure an installation that provides more space in the bathroom.

节省空间

减少产品深度，提供更多浴室空间。

SILENT SOLUTION

The use of the latest innovations allows the reduction of noise. All cisterns are equipped with an anti-siphon inlet valve, to ensure noise below national standard.

静音解决方案

利用最新的创新降噪技术，水箱均配备防虹吸进水阀，确保噪音排放小于国际标准要求。

WIDE RANGE OF OPERATING PLATES

Wide range of mechanical or electronics plates. In different colours and finishes that adapt to all aesthetic options in the bathroom space.

多款控制面板可选

多款机械面板与感应面板可选，多种饰面适配不同浴室空间的美学设计。

EASY INSTALLATION OF THE PLATE

All operating plates can be easily installed, without using tools.

易于安装的面板

操作面板都可以轻松安装，无需使用工具。

SOFT TOUCH AND EASY OPERATION

The operation of the push buttons to activate the flush requires a minimum effort (<25 N). The push buttons have been designed to run by press gently.

触感柔软，操作方便

操作按钮以激活冲洗需要最小的作用力（<25 牛），轻按即可触发。

FLEXIBILITY

Adjustable height and brake system. Adjustable range: 0-200cm.

灵活性

高度通过制动系统可调节，可调节范围：0-200mm。

Space Saving 节省空间

The space needed for installing an cistern has been designed to provide users with more room in the bathroom space.

To do so, all components (inlet valve, flush valve...) and the tank are less than 80 mm deep. Furthermore, its width is also reduced (460 mm).

安装**隐蔽式水箱**，旨在为用户提供更大的浴室空间。

经过特殊设计，所有部件（包括进水阀和冲洗阀等）和水箱的整体深度低于 80 mm，宽度为 460 mm。

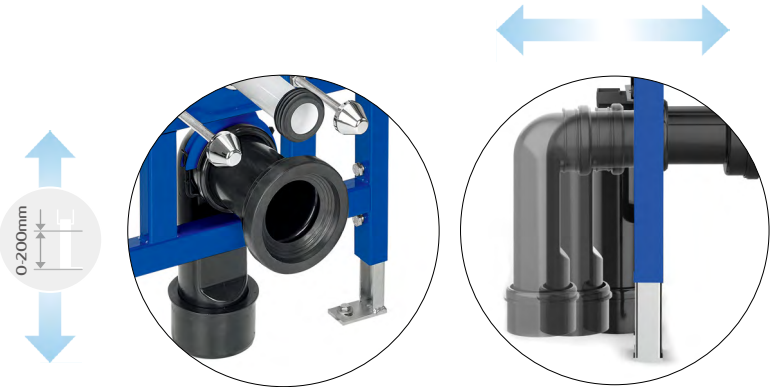

Flexible Installation 安装灵活

The concealed cisterns allow installers to adjust the height of the frame.

The tilt and depth of the flush pipe is easily adjustable thanks to the new positioning system.

隐蔽式水箱可调整框架高度。

由于采用了新的定位系统，冲洗管的旋转角度和前后档位可轻松进行调整。

Silent Solution 静音降噪

The components of the inlet valve and the polystyrene insulation have been optimised to reduce noise levels. With the cisterns it is possible to install in the room close to the bathroom.

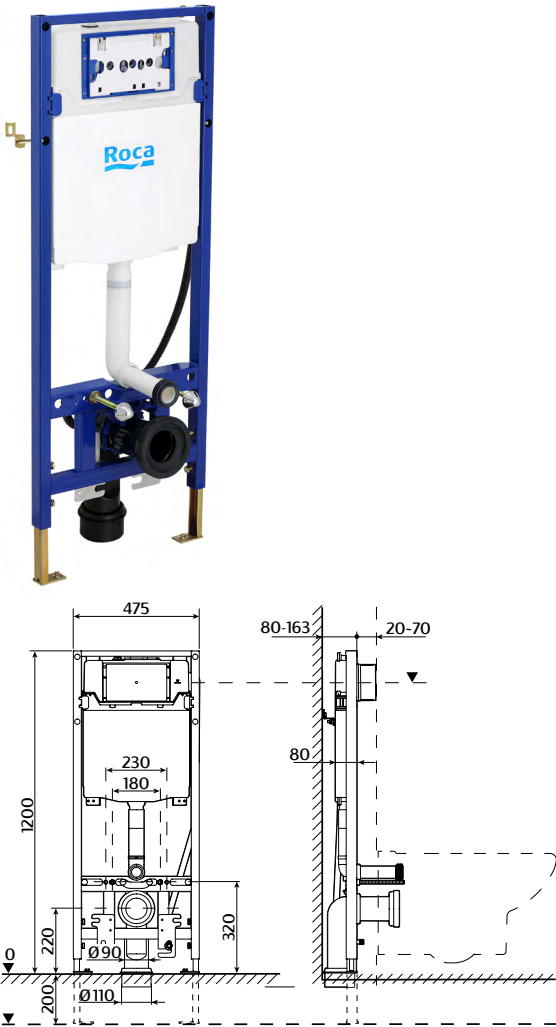

隐蔽式水箱的防虹吸进水阀已经过优化，降低噪音。使用隐蔽式水箱噪音低于国家标准，可与卧室邻近安装。

Wide range of Operating Plates
多种安装面板

Mechanical Plate
机械面板

Soft Touch and Easy Operation
触感柔软，操作方便

The motion transmission system of the plates has been designed to activate the flush by applying a force under 25N, well below the requirements of the norms and with a traveling of the button under 10 mm.

经设计后的面板的运作系统可以用更轻的作用力（约 25 牛）来激活冲洗功能，远低于规范要求，且按钮行程小于 10mm。

Electronic Plate
感应面板

Touchless Flush, Reduce Bacterial Spread
感应冲水，降低细菌传播

Without direct contact, a simple gesture is able to trigger flush, avoiding the spread of viruses and the growth of bacteria.
无需直接接触，只需一个简单的手势就能使马桶感应冲水，避免病毒的传播和细菌滋生。
